Dual-Zone HIFEM Electro Magnetic Resonance Chair

The Next Generation of Dual-Zone
Electromagnetic Stimulation for
Recovery, Rehabilitation & Longevity

vacuactivus.com

Introduction

PRODUCT OVERVIEW

Magnétique X-Trône™ is a premium dual-zone High-Intensity Electromagnetic Field (HIFEM) stimulation chair engineered for modern longevity clinics, rehabilitation centers, medical spas, sports recovery facilities, and wellness studios. Designed with a luxurious ergonomic black finish, it simultaneously targets the pelvic floor muscles and lower back musculature during a comfortable 28-minute hands-free treatment.

Unlike conventional electromagnetic stimulation chairs that focus only on the pelvic floor, Magnétique X-Trône™ delivers simultaneous dual-zone therapy for pelvic stability and lumbar support. Powered by an industry-leading 5.8 Tesla electromagnetic field, it generates thousands of deep supramaximal muscle contractions beyond voluntary exercise, helping activate muscles, improve neuromuscular function, and support rehabilitation.

How It Works

WHAT IS DUAL-ZONE HIFEM

MAGNÉTIQUE X-THRONE

Magnetic Field Penetration

High-intensity 5.8 Tesla electromagnetic field penetrates deep into the body.

Motor Neuron Activation

The magnetic field stimulates motor neurons in the targeted muscles.

Supramaximal Muscle Contractions

Thousands of involuntary supramaximal contractions are triggered - far beyond what is possible through voluntary exercise.

Neuromuscular Adaptation

Muscles adapt, rebuild, and become stronger and more efficient.

Long-Term Wellness Benefits

Supports recovery, prevention, and long-term muscle health for an active, confident life.

Functional Improvement

Enhanced core stability, posture, and support for daily activities.

Muscle Strength Increase

Improved muscle strength, endurance, and tone in both pelvic floor and lower back.

Dual-Zone Technology

DOUBLE TREATMENT

Engineered with independent electromagnetic coils, the system simultaneously targets the pelvic floor and lower back during every 28-minute treatment session. This synchronized dual-zone approach enhances core stability, strengthens postural support, promotes spinal health, and improves overall muscle performance — delivering more comprehensive functional benefits than single-zone stimulation systems.

Lower Back Stimulation Zone

Targets and strengthens the lumbar muscles that support the spine, improve posture, and enhance lower back endurance.

Pelvic Floor Stimulation Zone

Activates and strengthens the pelvic floor muscles, supporting core stability, bladder control, and overall pelvic health.

Key Features

TECHNOLOGY OVERVIEW

MAGNÉTIQUE X-THRONE

Exclusive Dual-Zone HIFEM Technology

Stimulates pelvic floor and lower back muscles at the same time.

Powerful 5.8 Tesla Magnetic Output

One of the highest magnetic intensities available for deep muscle activation.

Luxury Ergonomic Design

Premium seating for maximum patient comfort.

28-Minute Automated Treatment Programs

Efficient, comfortable, and operator-friendly.

Smart Touch Control Display

Integrated into the armrests for intuitive operation.

Completely Non-Invasive

No electrodes, probes, needles, or discomfort.

Zero Consumables

No disposable accessories or ongoing treatment costs.

Quick Patient Turnover

Ideal for high-volume wellness and rehabilitation practices.

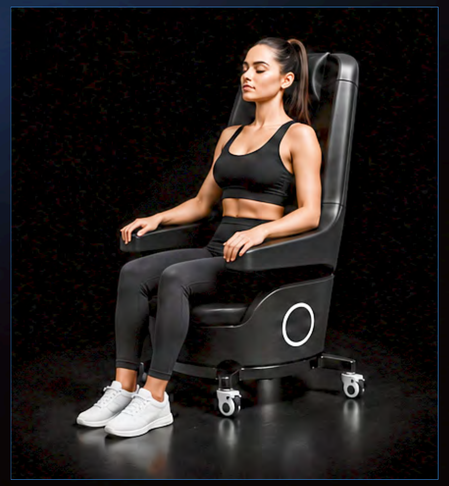
Treatment Experience

SIMPLE. COMFORTABLE. EFFECTIVE.

Magnétique X-Throne™ delivers a fully automated 28-minute dual-zone HIFEM therapy session. Designed for maximum comfort and convenience, it requires no preparation, no downtime, and no recovery.

MAGNÉTIQUE X-THRONE

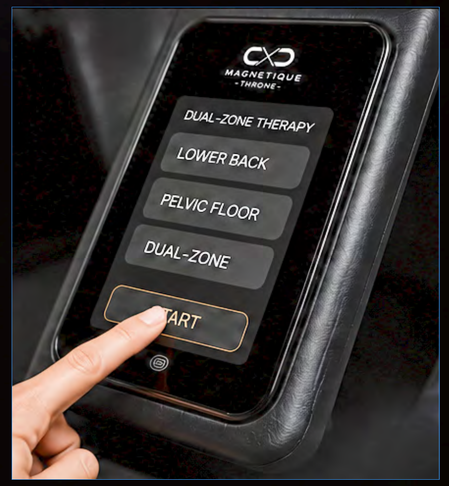
01



Patient Seated

Patient remains fully clothed and sits comfortably in the chair.

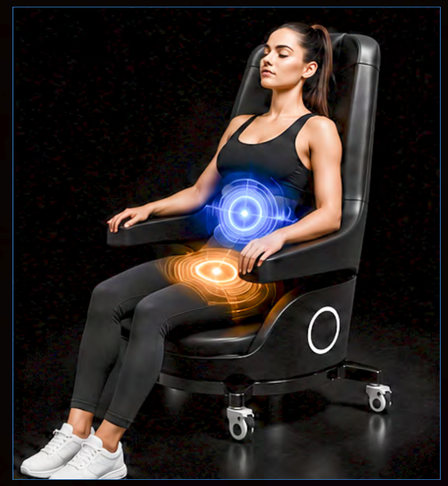
02



Select Program

Choose the desired program using the intuitive touch display.

03



Automatic Treatment

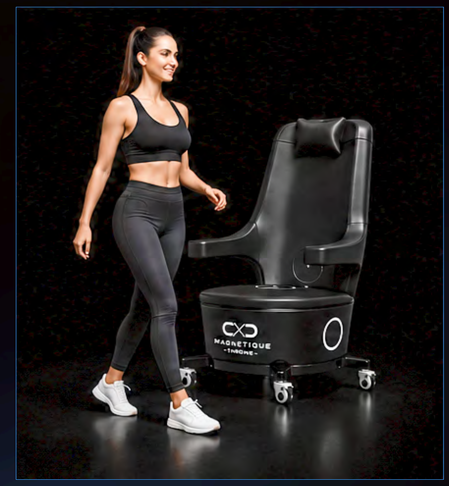
The 28-minute session begins automatically. Dual-zone HIFEM stimulates pelvic floor and lower back muscles simultaneously.

04

Deep Muscle Activation

Thousands of supramaximal contractions strengthen dual-condition deep muscles beyond what voluntary exercise can achieve.

05



Session Complete

The session ends automatically. No recovery time required. Patient can return to daily activities immediately.

Body Impact

BENEFITS OF DUAL-ZONE HIFEM THERAPY

MAGNÉTIQUE X-THRONE

Strengthening pelvic floor muscles

Supporting lower back muscle conditioning

Improving core stability

Supporting rehabilitation after inactivity or injury

Helping reduce symptoms associated with weakened pelvic floor muscles

Supporting post-partum recovery programs

Enhancing neuromuscular activation

Supporting posture and spinal stability

Complementing physical therapy and rehabilitation programs

Improving functional movement and muscle performance

Promoting healthy aging through regular muscle activation

Providing a comfortable, non-invasive alternative to electrode-based muscle stimulation

High-intensity electromagnetic stimulation activates deep muscles that are difficult or impossible to contract voluntarily. Clinical studies have demonstrated improvements in pelvic floor muscle strength, muscle endurance, urinary incontinence symptoms, and quality of life, with HIFEM often outperforming conventional electrical stimulation for pelvic floor rehabilitation.

vacuactivus.com

Premium Design

ENGINEERED FOR COMFORT. BUILT TO IMPRESS.

MAGNÉTIQUE X-THRONE

Luxury Ergonomic Comfort

Contoured backrest, premium cushioning, and supportive armrests provide exceptional comfort throughout the entire 28-minute session.

Intuitive Smart Touch Display

Integrated touch display in the armrest for effortless program selection and real-time session control.

European Design Language

Minimalist, elegant, and timeless aesthetics that elevate the image of any modern clinic or wellness center.

Robust Construction

Built with a sturdy steel frame with reinforced structure for maximum safety and durability.

Smooth Mobility

Heavy-duty, medical-grade silent casters for easy movement and stability in any clinical environment.

Magnétique X-Throne™ combines elegant European-inspired design with advanced engineering to deliver a superior experience for both patients and practitioners.

Every detail is crafted to ensure maximum comfort, reliability, and long-term performance.

Application

THE FUTURE OF LONGEVITY MEDICINE

Magnétique X-Trône™ fits perfectly into modern longevity and performance protocols where preserving muscle function is essential for healthy aging. The system helps clinics provide advanced non-invasive muscle conditioning without patient downtime.

- Longevity Clinics
- Biohacking Centers
- Medical Spas
- Wellness Clinics
- Rehabilitation Centers
- Physical Therapy Practices
- Chiropractic Clinics
- Sports Medicine Centers
- Athletic Recovery Facilities
- Orthopedic Clinics
- Women's Health Clinics
- Men's Health Clinics
- Luxury Hotels & Wellness Resorts
- Premium Fitness Clubs

MAGNÉTIQUE
X-THRONE

Technical specification

Technology	HIFEM
Treatment Time	28 min
Magnetic Output	5.8 Tesla
Treatment Zones	2
Operation	Touch Screen
Consumables	None
Applications	Medical / Wellness
Power Supply	110–240V

MAGNÉTIQUE
X-THRONE

Magnétique Throne represents the next generation of non-invasive magnetic muscle stimulation, combining powerful Dual-Zone HIFEM technology, Luxurious ergonomic seating, and intelligent automation to deliver exceptional comfort, efficiency, and clinical performance for modern wellness and rehabilitation.

Cryonick wellness technology FACTORY

Cryonick Wellness Technology is the official distributor of Magnétique X-Trône™ electromagnetic therapy systems.
