- HAND DISINFECTION
- ACCESS CONTROL

MedSaniStar

Smart Access & Hygiene Station

vacuactivus.com

Presentation

About the Product

MedSaniStar is an intelligent entry management solution that combines contactless temperature screening, automatic hand sanitization, facial recognition, and access control integration in a single device. Designed to enhance operational efficiency, hygiene standards, and visitor management across modern facilities.

Contactless temperature screening in seconds

Automatic hand sanitization system

Facial recognition and user identification

Integration with access control systems and automatic doors

Visitor registration and attendance tracking

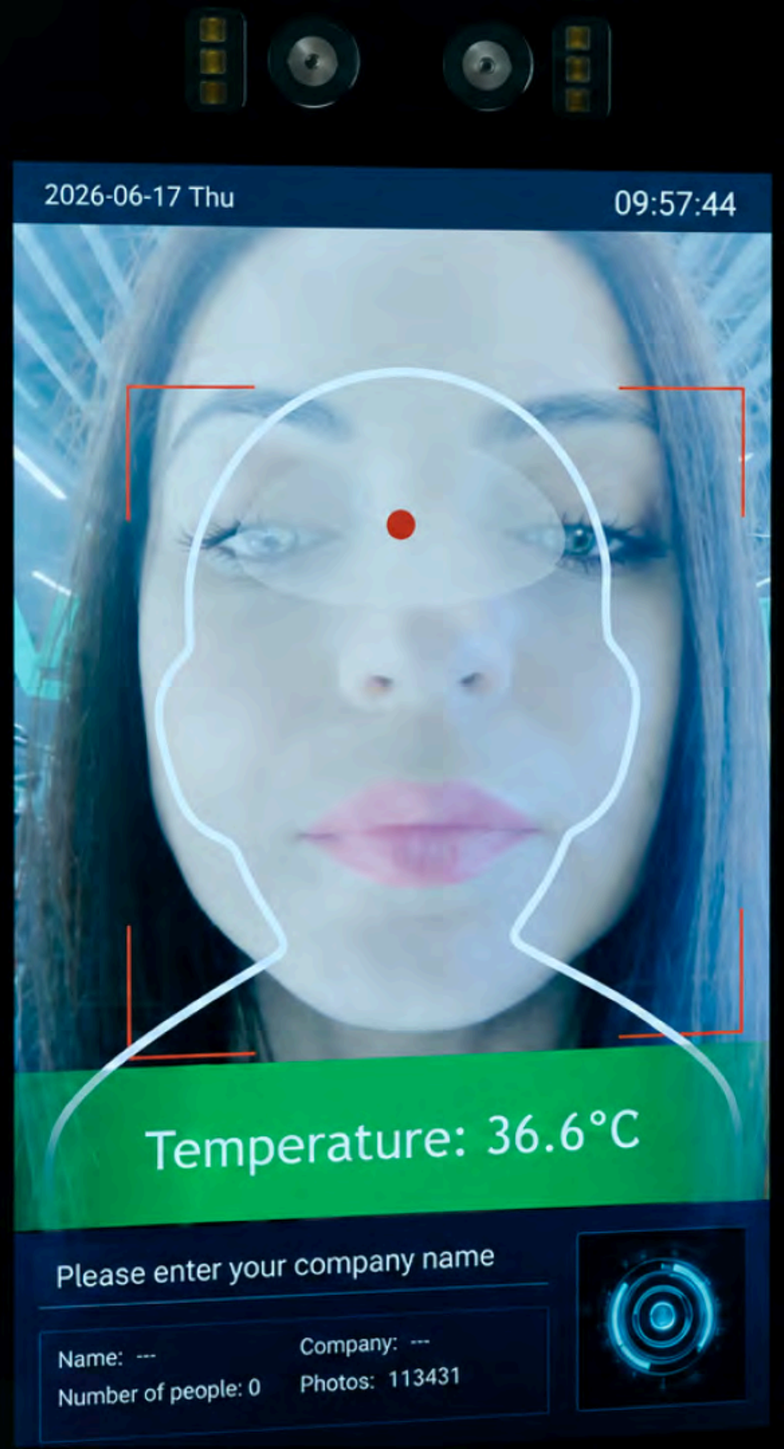

Enhanced hygiene and safety standards

Reduced staff workload through automation

Reliable 24/7 operation

How It Works

Scan. Verify. Enter.

1. Approach the Station

The visitor approaches MedSaniStar for quick and contactless verification.

2. Facial Recognition & Screening

The system automatically identifies the user and performs temperature screening within seconds.

3. Hand Sanitization

The integrated touchless sanitizer promotes hygiene before entry.

4. Access Granted

Once verification is complete, MedSaniStar can communicate with access control systems to unlock doors or turnstiles automatically.

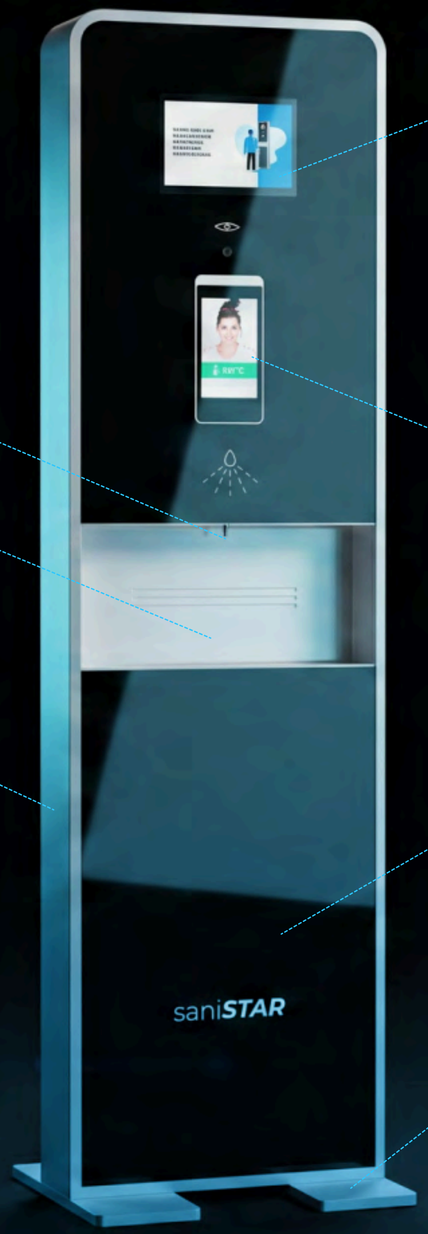

MEDSANISTAR

Why It Matters in Current Time

As organizations continue to automate operations and improve facility management, intelligent entry solutions have become an essential part of modern infrastructure. MedSaniStar streamlines access control, supports workplace hygiene protocols, reduces administrative overhead, and creates a more professional visitor experience.

MEDSANISTAR

MedSaniStar™

Smart Access & Hygiene Station

MedSaniStar™ is more than an access station — it's a smart entry solution that combines biometric identification, hygiene automation, and access control in one system.

MEDSANISTAR

Whether in offices, healthcare facilities, educational institutions, or wellness centers, MedSaniStar helps improve security, streamline operations, and enhance the visitor experience.
