

LYMPHATIC MASSAGE ROLLER

www.vacuactivus.com

OVERVIEW

INNOVATIVE TECHNOLOGY DESIGNED TO MEET THE NEEDS OF CUSTOMERS. ROLLSTAR HAS MANY ADDITIONAL FEATURES AND ENHANCEMENTS THAT MAKE IT BETTER THAN ANY OTHER MODELS.

Regularly using ROLLSTAR, especially as deep tissue massage roller, offers many of the same benefits as a sports massage, including reduced inflammation, scar tissue and joint stress, as well as improved circulation and improved flexibility. Workout on ROLLSTAR could destroy combination of fat cell in fat tissue and help to release single fat cells which are easy to transfer to energy. Also it helps to increase lymphatic and blood circulation which brings blood with oxygen in fat tissue. Regularly rolling pre and post workout helps prepare your muscles for the workout ahead and also help with post muscle recovery.

The ROLLSTAR design is work of the best professionals from space projects. Rounded elements in combination with movable walls look perfect.

HOW DOES IT WORK?

ACCELERATED FAT BURNING IS ACHIEVED WITH INTENSE ROTARY VIBRATIONS WITH ADDED BENEFITS OF INFRARED FEATURES

Lets body get rid of large accumulated toxins deposited in the deeper layers of the skin. Body warming in addition affects muscle relaxation thanks to which treatment is more affective. Infrared, thanks to its characteristics, is one of the most popular therapies.

Regularly using ROLLSTAR, especially as deep tissue massage roller, offers many of the same benefits as a sports massage, including reduced inflammation, scar tissue and joint stress, as well as improved circulation and improved flexibility. The ROLLSTAR destroys fat cells in fat tissue and helps to release single fat cells which easily transfer to energy. The ROLLSTAR also helps to increase lymphatic and blood circulation bringing blood with oxygen to the fat tissues. Regularly rolling pre and post workout helps prepare your muscles for the workout ahead and also helps with post muscle recovery.

It is therapy which uses selected colours to have impact on the organism. Variable light colours have significant effect on hormonal responses in the body. Thanks to this therapy we can increase resistance and restore balance of the body.

Aging skin is flabby, dry and wrinkles start to appear on it. It is effect in basic skin builder: collagen. With age number of quantity of collagen fibers is getting smaller and they are getting thickened To prevent this in ROLLSTAR we used radiation of specifically selected wavelengths, synergistic radiation affects skin repair process, further supported by massage.

Modern environment is full of positive ions, produced by electronic equipment. Living in such environments affect drowsiness, malaise and fatigue. Air ionisation supplies air with health ions, making you feel better and getting to our body portion of energy it needs.

ONCE YOU START ROLLING WITH ROLLSTAR WE GUARANTEE YOU WILL WONDER HOW YOU EVER PERFORMED YOUR WORKOUTS WITHOUT IT.
