ICEBERG
ELECTRICAL

PRODUCT OVERVIEW

The electric Iceberg, is the last generation of cryo devices that offers extreme cold temperatures to an affected area.

This electric machine does not require nitrogen refills.

It is portable, and has a low power consumption, and can be plugged into a regular outlet, making this unit the best solution for your beauty, wellness or rehabilitation practice.

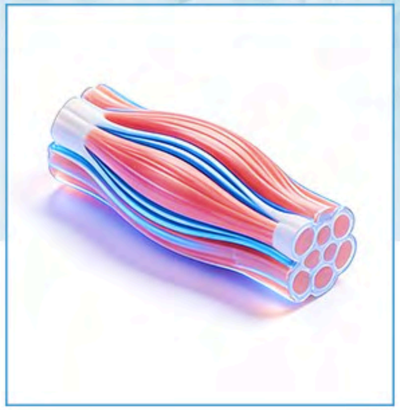

The electric Iceberg cryotherapy machine is designed to deliver the safest and most effective localized cryo treatment.

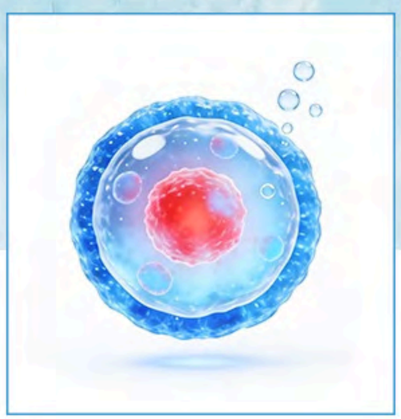

WHAT IS CRYOTHERAPY

ICEBERG ELECTRICAL

Cryotherapy is a short-term exposure to extremely low temperatures that triggers:

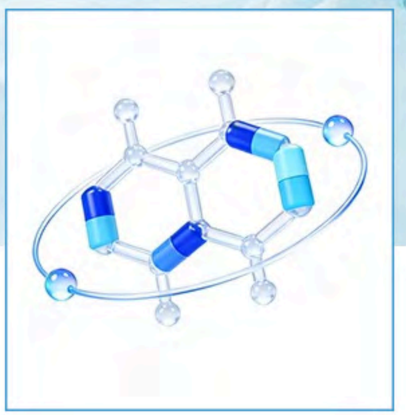

Accelerated muscle recovery

Inflammation reduction

Pain relief

Metabolic activation

Improved vitality & well-being

ICEBERG
ELECTRICAL

THE LED MASK

GRAND VERSION ONLY

The Grand model of the Iceberg electric localized cryotherapy machine, has a LED light face mask.

The intense lights blends with different wavelengths, that are effective in skin care to treat acne, reduce pigmentation, heals skin and boost collagen production.

During a session, the machine blows cold air under the LED mask.

ELECTRICAL

THE LED MASK

GRAND VERSION ONLY

The mask has a connector that unplugs, and incorporates rubber pins to hold it gently in place.

The combination of cryo and LED therapy is a great alternative to Botox and reduce inflammation after other beauty treatments.

COLOR VERSIONS

Iceberg Electric CRYO is available in two elegant color options — classic black and clean white.

Both finishes are designed to complement modern wellness, medical, and fitness interiors, allowing the device to seamlessly match different studio concepts while maintaining a premium, professional appearance.

TWO COLORS. SAME POWERFUL RESULTS.

PRECISE COLD CONTROL

ICEBERG
ELECTRICAL

100% Electric Cryotherapy

Deep cold air generated by advanced compressors — no nitrogen, refills, or storage. Ideal for gyms, hotels, medical, rehab, and longevity centers.

Extreme Cold Performance

Cryogenic temperatures comparable to nitrogen systems for recovery, inflammation reduction, pain relief, metabolic activation, and wellness.

Precision Digital Control

Touchscreen interface for accurate temperature, session time, and safety settings.

RELIABILITY AND AESTHETICS

ICEBERG
ELECTRICAL

Commercial-Grade Reliability

Designed for intensive daily use with industrial components and long service life.

Advanced Safety Systems

Multi-level sensors, emergency stop, automatic shutdown, and continuous monitoring.

Premium Modern Design

Minimalist, futuristic aesthetics suited for high-end wellness and biohacking spaces.
