WHAT IS CRYOTHERAPY

Antarctica Cryobarrel

Cryotherapy is a short-term exposure to extremely low temperatures that triggers:

Accelerated muscle recovery

Inflammation reduction

Pain relief

Metabolic activation

Improved vitality & well-being

MODEL VERSIONS

Antarctica Cryobarrel

SIMPLE VERSION

Single compressor

Temperature up to -80°C / -100°F

GRAND VERSION

Dual compressor

Temperature up to -110°C / -150°F

KEY ADVANTAGES

Antarctica Cryobarrel

100% Electric Cryotherapy

Deep cold air generated by advanced compressors — no nitrogen, refills, or storage. Ideal for gyms, hotels, medical, rehab, and longevity centers.

Extreme Cold Performance

Cryogenic temperatures comparable to nitrogen systems for recovery, inflammation reduction, pain relief, metabolic activation, and wellness.

Closed-Chamber Barrel Design

Full-body exposure ensures even cold distribution and maximum effect in short sessions.

DESIGN & CONTROL

Antarctica Cryobarrel

Precision Digital Control

Touchscreen interface for accurate temperature, session time, and safety settings.

Premium Modern Design

Minimalist, futuristic aesthetics suited for high-end wellness and biohacking spaces.

SAFETY & RELIABILITY

Antarctica Cryobarrel

Commercial-Grade Reliability

Designed for intensive daily use with industrial components and long service life.

Advanced Safety Systems

Multi-level sensors, emergency stop, automatic shutdown, and continuous monitoring.

DIMENSIONS (CM)

WHY CHOOSE ANTARCTICA BARREL

- ✓ No nitrogen logistics or consumables
- ✓ Lower long-term operating costs
- ✓ Consistent performance and repeatable results
- ✓ Environmentally cleaner cryotherapy solution
- ✓ Backed by factory engineering expertise and global installation experience
