DE-STRESS LOUNGE

Introduction

ABOUT THE PRODUCT

The Massage Chair De-Stress Lounge is designed to provide a full-body therapeutic massage, targeting your head, back, legs, and feet.

This advanced chair uses air pressure, rollers, heat therapy, and zero gravity positioning to relieve tension, improve circulation, and promote deep relaxation.

DE-STRESS LOUNGE

Full Body Massage

GENERAL DESCRIPTION

The Massage Chair De-Stress Lounge uses a combination of air pressure, rollers, and heat therapy to deliver a full-body massage experience. Its SL Track system ensures smooth movement from the neck to the waist and buttocks, providing targeted relief with walking, kneading, and rolling techniques.

The shoulder position detection system adjusts automatically to your body, while the air pressure massage improves circulation. The zero gravity design enhances comfort by reducing spinal pressure, creating a weightless, deeply relaxing experience.

THAT MAKE IT PERFECT

DE-STRESS LOUNGE

Voice Control

The chair supports voice commands for convenient operation. To activate the voice assistant, use the wake-up commands “Hello Nana” or “Hello Pretty”.

After activation, you can issue commands to change massage modes, adjust the chair position, and more.

Shoulder Massage Position Adjustment

If the shoulder massage position is too low, press the “ Shoulder adjustment + “ button to raise it (3 levels available).

If the shoulder massage position is too high, press the “ Shoulder adjustment – “ button to lower it (also 3 levels).

Airbag Massage Control

The chair features a system of airbags for full-body massage.

You can adjust the airbag pressure intensity – choose between 3 levels of intensity.
