# Our Vision

As a team of forward-thinkers in technology, we play a key role in addressing the challenges of self-care by introducing holistic approaches in the wellness, spa, rehabilitation, healthcare, and beauty industries. Turning the conventional healthcare and beauty sectors into a regeneration culture is one of the ultimate effects that fitness and rehab equipment manufacturers can stimulate. Human health, noninvasive practices, and adaptation to environment are all on the global radars. But people cannot manage them alone. Vacuactivus is a huge step in the transition to a healthier and responsible lifestyle. We exist to support people in their strive for life satisfaction. We provide tools for those pioneering the way to metamorphose conventional techniques into a sustainable wellness solution. By adopting them, our customers are turning physical procedures into natural healing experiences.

# Our Mission

Vacuactivus is an innovative, result-driven and daring company united in a mission to contribute to responsible beauty and better health.

We believe that each of us should have the right to take ownership of our well-being, the way we look and perform, and the way we invest in our future. Through our sophisticated appliances for cryotherapy, fitness and rehabilitation we implement far-reaching self-care solutions to improve lives for the years to come.

We believe  
that your body  
deserves care  
and respect.

# Making The World A Better Place

## Our Brand

The key objective of the company is the development of advanced technologies and equipment that combine style and sense for a comfortable and vibrant lifestyle

### Technology and trends

As business evolves in the daily routine self-care, our game-changing appliances create trends and advocate mindful lifestyle for people all over the world.

### Appealing design

We are inspired by the idea of a smooth yet distinctive spirit of the future. That's why our equipment has clean and laconic forms and countless possibilities.

### International presence

Vacuactivus aims to satisfy the need for intellectual devices as a part of lifestyle. Today, we are partnered with cryo, wellness, spa, rehab and fitness studios globally

# Technology: Let's Celebrate Future

Advancing the rejuvenation practices through innovative high-tech solutions

Our compelling desire to advance drives us to recharge the whole industry. The world-leading appliances we produce use proven data, deep technology and next-generation solutions to offer potential for a happier and healthier life. Our brand credibility and numerous loyal customers in all corners of the world motivate us for growth and creation of new technologies.

# Innovation: From Refinement to Reinvention

The future is generous, and so are the possibilities it grants. Vacuactivus moves forward to pass the motto to you. We develop and expand strategic products in the rehabilitation and beauty segment. Since when we first launched our revolutionary equipment on the global market, inventive technology and original design reinforced our leadership in the industry of cryo, slimming, and recreation appliances.

As the manufacturer of fitness equipment, we reached the summit by introducing conceptually new products with trend-setting design to the market of premium devices. Elaborating on our product lines, we implement the concept of efficacy through innovation thus filling mounting needs and providing leeway to their usage both privately and commercially. Researchers and experts from all over the world work on future-oriented technologies that change lives to create new possibilities and make the world a better place.

# Unprecedented Solutions

We develop world-beater products that help boost your confidence in the results. Our portfolio includes customer-focused innovative solutions to cover the call of various client categories for essential body care.

## Cryonic Rollers

## Rehab Chambers

Muscle restoration and weight loss with hot and cold therapy and low-impact physical exercise

## Aqua Rehab

Underwater workout equipment engaging all body muscles and favoring joints

# Mainstreaming New Look

*Don't take your health for granted. Don't take your body for granted. Do something today that communicates to your body that you desire to care for it.*

Jada Pinkett Smith

We at Vacuactivus are rooted in using automation to good advantage of people. The three pillars in the development of our products are:

Innovation

Research

Going beyond

To achieve the envisioned outputs, we opt for the extension of study areas with promising trends. Smartly combining them, we design products packed with extra features for enhanced user convenience.

Cryo therapy

Infrared heating

Lymphatic massage

Vacuum

Water resistance therapy

Hydro massage

Vibrotraining

Collagen lamps

Color therapy

Aroma therapy

Air ionization

Steam sauna

# Endless Possibilities in Regeneration
